

Refrigerators

Sunfrost RF19 shown mounted on a 13" cabinet

Sunfrost

In addition to being energy efficient and reliable, Sunfrost offers amenities not found in conventional household refrigerators such as food-saving, high humidity storage conditions, quiet operation, and rugged, one piece, easy-to-clean liners. Sunfrost refrigerators are custom crafted and may be ordered in a wide variety of color laminates and wood veneers. All models are available in 12VDC, 24VDC, 110AC or 220AC.

The RF19 refrigerator freezer has two equal sized compartments. The freezer is twice as large as the freezer in the RF16 and the refrigerator compartment is slightly smaller. The RF19 is typically mounted on a 13-inch high cabinet. It uses two quiet and highly efficient fans to cool the exterior cooling coils.

The RF16 features two independent cooling systems and temperature controls. The cooling coils on the outside of the unit do not require fans. This model is usually mounted on a 13-inch high cabinet.

The RF12 is a single compressor refrigerator freezer that is passively cooled (no fans). It is typically mounted on a 24-inch high cabinet. The matching cabinet has two large side by side drawers.

Model	Energy Use/Day @70°F/21°C	Energy Use/Day @90°F/32°C	Dimensions HxWxD	Volume (cu. feet)	MSRP
RF12 Refrig/Freezer	.30 KWhrs	.53 KWhrs	49.50" x 34.50" x 27.75"	12	\$2,199.00
RF16 Refrig/Freezer	.49 KWhrs	.79 KWhrs	62.50" x 34.50" x 27.75"	16	\$2,899.00
RF19 Refrig/Freezer	.77 KWhrs	1.03 KWhrs	66.00" x 34.50" x 27.75"	19	\$3,099.00
F4 Freezer	.35 KWhrs	.45 KWhrs	31.50" x 34.50" x 27.75"	4	\$1,550.00
F10 Freezer	.69 KWhrs	.88 KWhrs	43.50" x 34.50" x 27.75"	10	\$1,959.00
