## **SunWize Launches Second Corvallis Solar Challenge**

### **Second Solar Challenge Benefits Corvallis High School's Green Club**

Kingston, NY – February 24, 2011 - [SunWize Systems](#), the premier solar installation division of SunWize Technologies, Inc., has initiated its second city-wide [Solar Challenge](#) in Corvallis, Oregon.

SunWize Solar Challenges catalyze an entire city or town to achieve a significant renewable energy goal. The Corvallis Solar Challenge aims to add 60,000 watts of clean, solar energy to the city's power production by Earth Day 2011.

The Challenge begins on February 26 and ends on April 22. As part of the Challenge, SunWize is offering a donation of up to \$10,000 to the Corvallis High School Green Club to help it meet the goal of expanding the school's rooftop solar system. This will add to the previous donation from the first and highly successful Corvallis Solar Challenge in which SunWize donated \$6,000 to the Green Club for the school's current solar installation.

"We encourage the residents of Corvallis to investigate the benefits of this Solar Challenge. Everybody wins," said Julie Williams, teacher and CHS Green Club advisor at Corvallis High School. "The financial benefit for the homeowner and the potential social, environmental and educational impact for the students and community is undeniable. We are excited to partner with SunWize again on this Challenge."

"We decided to launch a second Corvallis Solar Challenge based on enthusiasm in the community and participation in the first to meet an important renewable energy goal" said David Kaltsas, Systems Group president at SunWize. "We look forward to replicating the success of our inaugural Solar Challenge to bring solar electric solutions to the residents of Corvallis and raise money for the local high school."

To learn more about the Corvallis Solar Challenge, please attend our free solar seminar at Corvallis High School on Saturday, February 26 from 10:30am to noon, visit us online at <http://www.sunwize.com/corvallis>, or call (541) 230-5001.
