**SunWize Offers Largest Solar Electric Distribution Operation in the U.S.**

**New Facility in Middletown, NY, and Facility Expansion in Rancho Cucamonga, CA, Position SunWize for Continued Growth**

**Kingston, NY – October 6, 2011** – [SunWize Technologies, Inc.](http://www.sunwize.com) announced today it has grown its solar distribution operation in the United States with a new warehouse and expansion of current facilities. The combined facilities comprise more than 200,000 square feet, enabling SunWize to efficiently provide same-day shipping of its solar electric product offerings to its North American customers.

SunWize significantly expanded its East Coast operations with a new 63,800 square foot warehouse in Middletown, NY, creating additional space for growth for its value-added systems in its Kingston, NY, facility. On the West Coast, SunWize more than doubled its warehouse facility in Rancho Cucamonga, CA, to 137,242 square feet.

In addition to shipping thousands of solar products to its solar installer customers, SunWize also utilizes the facilities for pre-installation assembly of turnkey government and commercial solar projects, and for production of its engineered off-grid solar systems.

“SunWize is pleased to announce the expansion of our warehouse operation to create the largest U.S. solar electric distribution operation,” said Jim Stevenson, senior vice president of operations at SunWize. “Recent growth created the need for additional space, and the new facilities allow us to continue providing the highest levels of service while optimizing our entire operation, allowing SunWize and our customers to succeed in an increasingly cost-sensitive environment.”

**About SunWize Technologies**

SunWize Technologies, Inc., a subsidiary of Mitsui & Co. (U.S.A.), Inc., offers superior solar energy solutions to homes and businesses in the U.S. and abroad. The SunWize advantage is complete commitment to the customer’s satisfaction. Founded in 1992, SunWize is a pioneering solar distributor delivering top-tier products to the North American marketplace. The company manufactures a full line of best-in-class engineered solutions. In addition, SunWize continues to build on its reputation for high-quality residential, commercial, public sector and industrial installations. The company operates manufacturing and distribution facilities on the east and west coasts and sales offices throughout the U.S. and Canada.
