SunWize Now Stocking Product in Three Locations

Kingston, New York, February 26, 2004 – SunWize Technologies is now stocking product in three US locations. In order to serve the growing demand in northern California, SunWize has added a select product inventory to their Willits location for the convenience of dealers who prefer to pick up orders. Products can also be picked up or shipped from SunWize’s warehouses in Southern California and in New York State. The 8500 square foot distribution facility in Oxnard, CA. is located 60 miles north of Los Angeles. SunWize also operates a 30,000 square foot manufacturing and distribution facility on the East Coast in Kingston, NY. Joanne Rogers, VP Residential Power, commented, “Stocking product in three locations is part of our commitment to improve the support and service we provide our dealers and installers.”

For more information contact Joanne Rogers, telephone 800-232-7652, email: sunwize@bellsouth.com. SunWize Technologies, a solar technology company, specializes in the design and manufacture of integrated solar power systems, and associated project development and product distribution.
