

# CAPABILITY STATEMENT

## ABOUT US

**SunWize Power & Battery** designs and builds reliable, stand-alone industrial power solutions and electronic assemblies for integration into OEM products and off-grid field applications. With over 20 years of proven reliability in extreme environments, our solar battery backup and hybrid power systems are pre-engineered, assembled and tested for easy installation and minimal maintenance. We also offer a broad range of remote industrial power system components, such as electrical components, batteries, solar modules, enclosures, and solar module mounts.

### PRODUCTS

- Off-Grid Autonomous Power Systems
- Remote/Outdoor Battery UPS Systems
- Rugged Outdoor Solar Mounts
- Rugged Outdoor Enclosures
- Hybrid Power Systems (Solar/Wind/Generator)
- Components and Sub-Assemblies

### SERVICES

- Solar System Sizing and Design
- Hybrid Power System Design and Analysis
- Design for Back-up Power Systems
- Consulting Engineering
- Assembly and Testing

## PAST PERFORMANCE

Our business focuses on working closely with our clients to understand power system requirements and provide high quality, comprehensive, reliable, and cost effective power systems to meet customer needs. We are constantly evaluating our approach to ensure we are using industry-leading products and the highest standards when building our systems. We are committed to excellence in everything we do, which is why our customers continually come to us with their power needs.
