

## 3 Pole Combiner Accessory for Power Ready Express Systems

230084

The 3 pole combiner accessory side plate wires into an existing PRE Control Panel's PV input and allows three separate strings of solar modules to provide power to a PRE system. This allows a system to harvest more power increasing reliability and decreasing the recharge time of the batteries.

### FEATURES:

- Easy installation
- Pre-wired and fully assembled
- Three (3) PV connections

**A COMBINER DOES NOT ALLOW YOU TO EXCEED THE RATING OF YOUR CHARGE CONTROLLER**
