

PV Kits - Solar Module, Charge Controller & Mount

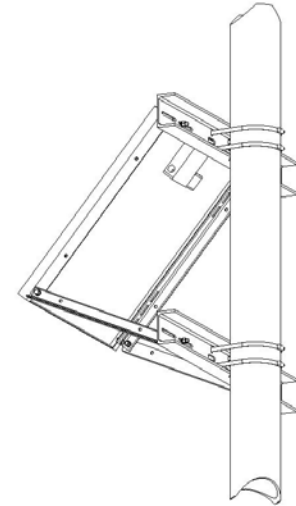

SunWize® PV Kits include a solar module, a junction box mounted charge regulator and are pre-wired with an output cable. The 10 – 40 watt kits are offered with an adjustable Uni-mount. The 50 – 110 watt kits are available with an adjustable double rail mount.

SunWize single crystalline, high-efficiency solar modules are manufactured to exceed industry standards providing exceptional reliability and maximum power output. A 20-year warranty reflects the superior quality and assures long product life.

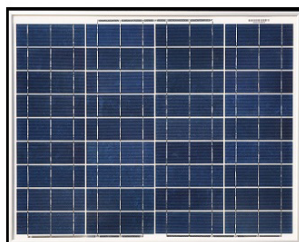

The waterproof regulator features a multi-function LED indicator and fuse protection.

The aluminum side-of-pole mounts are designed to fit 2 - 4" diameter SCH40 poles. Standard banding is provided to fit this range.

Modules from 10 – 110 watts include a 15 ft. (#14 AWG) tray cable standard.

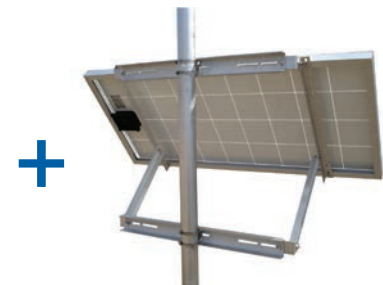

SWPB Part #	Description	Features
270022	PVK-2 With Side of Pole Mount	Includes 20 watt module, charge controller and tray cable
270023	PVK-2L No Mount	Includes 20 watt module, charge controller and tray cable
270014	PVK-4 with Side of Pole Mount	Includes 40 watt module, charge controller and tray cable
270015	PVK-4L No Mount	Includes 40 watt module, charge controller and tray cable
270016	PVK-6 with Side of Pole Mount	Includes 60 watt module, charge controller and tray cable
270017	PVK-6L No Mount	Includes 60 watt module, charge controller and tray cable
270018	PVK-8 with Side of Pole Mount	Includes 80 watt module, charge controller and tray cable
270019	PVK-8L No Mount	Includes 80 watt module, charge controller and tray cable
270020	PVK-10 with Side of Pole Mount	Includes 100 watt module, charge controller and tray cable
270021	PVK-10L No Mount	Includes 100 watt module, charge controller and tray cable

20W to 110W module

Morningstar SunKeeper 6A Charge Controller

*Side-of-Pole Mount Optional
