

4U Rack-mount Accessory for Server & Electronics Equipment

270358

SunWize Power & Battery's new 19" rack-mount accessory has 4U worth of racking space that fits into the M2-8D outdoor rated NEMA 3R enclosures. This 19" steel rack-mount has a premium yellow-cadmium finish and simple installation hardware. This accessory allows for a compact solution to remote site power applications powering standard 19" rack-mount equipment. Fit your rack devices, power electronics (such as inverter, solar charge controller, and switchgear), additional shelf equipment, plus batteries in one outdoor-rated, pole-mounting enclosure. M2-8D can provide up to 300Ah at 24VDC.

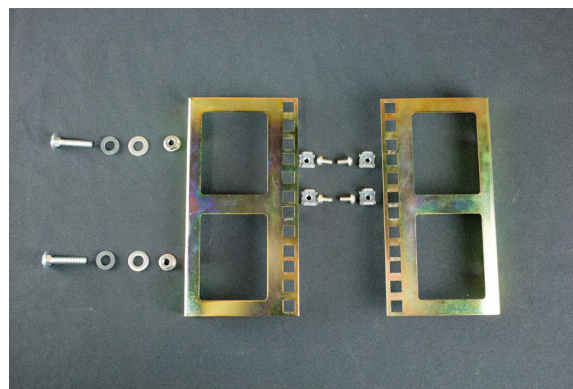

The removable shelf in the M2-8D enclosure allows for design options of either additional energy storage capacity or additional electronics to be mounted on center back-plates.

KEY FEATURES:

- Steel with Yellow Cadmium Coating
- 4U Mounting Space (4x 1.75 inches vertical)
- Quick Installation Mounting Hardware
- Works with Shelf, Back-Plate, and Side-Plate Options
